AERPHAX

AERPHAX PRESENTS:

WIRELESS WATER

CRYPTOSINK 6.02

A 448 bit encryption of a downloadable sink worldwide throughout the new Bluetooth Long Distance Network - BLDN. Are you thirsty in the middle of the Sahara dessert? Just bring your laptop with and you are able to download the Cryptosink 6.02 plug-in. A file will be extracted and then a Magic Zink™ will appear, to deliver water through a USB connection to the Magic Class™.
